implements in-ground projects  
and programming for best  
environmental practices.*

## INGROUND PROJECTS

### Livestock Crossings

### Exclusion Fencing

### Reforestation/Tree Planting

### Wetland Creation

## PROGRAMMING

We have re-occurring seasonal programming to help reforest the watershed! Our Potted Tree Ash Replacement Program helps reforest the shoreline from the Emerald Ash Borer, and our annual Spring Tree Seedling Program provides ALL residents with FREE native tree seedlings!

PRWIN is asked to speak about our projects & programs at many local Clubs!

School classes and youth groups enjoy learning about the watershed at the McLarty ESA

## INGROUND PROJECTS

### Berms/WosCobs

### River Bank Restoration

### Alternative Water Sources

### Riparian water course planting
